Systems Audit

Today's networks and systems are a complex web of systems integration, interfaces, and connectivity—the systems and data are the 'heart' of the hotel's operation. Protection of these valuable assets is critical to ensure that the hotel will be able to continue to service its guests effectively.

O'Neal Consultants offers a variety of system audits based on the hotel's requirements:

Basic System Review & Security Check:

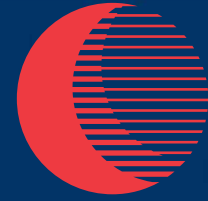

- Server & Hardware Analysis
- Security Audit (Network & Application)
- Network Diagram & Analysis
- Virus Protection
- Backup System

Comprehensive Systems Audit:

- Security Audit (Network & Application)
- Network (LAN/WAN) Diagram
- Server & Hardware Analysis
- Virus Protection
- Backup System
- WAN Audit & Security
- WAN Analysis

Hotel System Review:

- Review Application System & Recommend Improvements in Operations
- Review Flow or Information and Operations to Determine "Bottlenecks" and Make Recommendations to Streamline
- Assist Operations Team in Auditing System for Potential Fraudulent Activity
